444-2407 Seven-Shelf Library 92" High

All units closed is 44" deep. Open is 80" deep.

Finishes and Specifications

Frame Construction: Constructed of 16-gauge 1" x 1" tube steel, 16-gauge steel channel and 16-gauge steel angle. All are fully welded and powder coated frame per 16" wide unit. Units bolt together side by side for seamless construction.

Inner Case and Shelf Construction: Unit consists of Center Case and Bottom Carriage. Units ship factory assembled and can be separated in the field for maintenance or reversing direction of entry. The Bottom Carriage has a bumper assembly, heavy duty 5" casters and Safety Chain to ensure the unit moves in and out of the frames smoothly and safely.

Edgebanding: Machine applied using a moisture-curing, polyurethane adhesive, containing no VOC's. 3mm PVC is standard on all panels.

Frame Assembly: Fully welded frames are connected to wall and mounted angle brackets and floor mounting brackets.

Design Advantage: Corilam can assist with design and layout that will maximize space, budget and ease of use concerns. Our engineers have updated 3D CAD software to provide detailed layout.

Colors: 10 to choose from in stock. Over 200 available by special order.
