

## Custom Classroom Tables

CFC Educational can help you customize your classroom space with many different tables. All tables are customizable in shape, size and base style.

CFC can give your table added function by incorporating **Dry Erase HPL** into the writing surface of your tables. This gives an added dimension to something that is as simple as a table.

High quality steel bases can also include the following options:

- Adjustable - (Spring Clip Height Adjustment)
- Flip Top - (Handle Release)
- Folding - (Handle Release)
- Casters
