Specifications

Base Construction	Manufactured using 3/4" thick, 45 lb industrial particleboard core laminated with HPL or thermofused melamine. All exposed edges are sealed. Glue line is a moisture and heat resistant PVA adhesive containing no VOC's. Casters are through bolted to bottom panel. All products ship fully assembled. When applicable, pull outs or drawers are epoxy coated standard drawer runners.
Edgebanding	Machine applied using PUR adhesive (moisture –curing, polyurethane, containing no VOC's).
Standard Finishes	CFC Educational: Woodgrains - Solids - Nebulas - Patterns Other Standard Finish HPL: Upcharge may apply
Options	(E) Power - Based on requirements
