

Plastic Storage Tray System

This system is designed using high quality components and precise machining to create a fully functional way to organize your materials.

Generally plastic trays are made from either High Impact Polystyrene (HIPS) or Talc Filled Polypropylene (TFPP).

All of our solid color trays are manufactured from HIPS, which is proven to be 8 times stronger than trays made from TFPP.

The clear trays are made from ABS, a material that is even stronger than HIPS.

All trays are shatterproof for safety.

Standard Colors

STANDARD:
Runners are (CR) Clear

Standard Sizes & Product Codes

Product ID	Depth	Width	Length
HW54350__	3" (77 MM)	12" (312 MM)	16.5" (425 MM)
HW54352__	6" (157 MM)	12" (312 MM)	16.5" (425 MM)
HW54354__	12" (300 MM)	12" (312 MM)	16.5" (425 MM)

(PR) RED	(LG) COOL GRAY
(PY) YELLOW	(PG) GREEN
(PB) BLUE	(CR) CLEAR
